

SEVENTY TWO

STRAIGHT BOURBON WHISKEY

Seventy Two Bourbon is made in new American Oak barrels for a minimum of 4 years. The mash bill consists of white corn and rye, which will provide an excellent balance of sweetness and spice. Seventy Two delivers a rich and complex whiskey with considerable depth and a long silky smooth finish.

Enjoy, and good health to all. May you have had the good fortune to have known a special someone that has blessed your life in the extraordinary way that #72 has blessed so many.
